I talked to Clearview and worked on some additional language to use on the justification. Not sure if this is needed or will help but I thought I would send it to you anyway.

Given the national importance of our collaboration, Clearview AI's principals have offered to work with our Agency as follows:

- Refine, develop and customize their ongoing image-collection process to accommodate our specific needs related to Child Exploitation or any other criminal or person-of-interest categories we wish to pursue
- Develop new functionalities and protocols in their operating system in response to the needs/requests of Agency management
- Work collaboratively with Agency staff on prospective software integration project if desired
